ACCESSORIES TO ENHANCE YOUR JOBCOM RADIO

Carrying Holster

Durable holster with belt loop protects the radio and provides carrying convenience.

Belt Clip

Included belt clip keeps your radio close at hand for easy access.

Single Unit Drop-In Charger

Standard rate overnight charger adapter. Charges radio with battery attached or a spare battery while radio is in use.

Remote Speaker/Microphone

Remote push-to-talk speaker/mic with lapel clip and high/low volume control. Allows you to talk and listen without removing radio from the holster.

Headsets

Single- and dual-ear headsets feature a boom microphone and are available for most JOBCOM radio models. Headsets offer private reception, improved hearing in high noise areas, and eliminate the need to remove the radio from the belt.

Earphone

Featuring a 6-foot cord and a shock absorber plug to reduce accidental pull-out, earphones offer private reception in high or low noise environments.

Every Jobcom JMX Radio Includes:

- Rechargeable Battery • Wall Charger • Flexible Antenna
- User Manual • Belt Clip

NEW**JMX-102** VHF

1 Channel Operation
1 1/2 Watts
Maximum Battery Life

Ergonomically designed with a rugged housing, the JMX-102 is exactly what you're looking for in a 2-way portable radio that fits right in the palm of your hand. At slightly over 11 ounces and just 4 3/4" tall, the JMX-102 is perfectly sized for any jobsite application. Quick-swap battery and optional drop-in charger make the JMX-102 ideal for multi-shift operation.

- Available on the VHF color dot frequencies.
- 17 hour battery life
- Passes 6-foot drop test onto concrete.
- Only 4 3/4" high
- Local/distant squelch
- Crisp clear audio output
- Optional desk top drop-in charger charges radio or battery
- Audio Accessory Jacks

Optional
Drop-in Charger

JMX-152 VHF
JMX-452 UHF

2 Channel Operation
2 Watts
Weather Scan (VHF Only)

**Built-in Quiet Call feature
eliminates interference.**

Our ultra-compact JMX series radio is small, lightweight and rugged—featuring 2 channel capability for multiple work groups and 2 watts of power output. Frequencies and Quiet Call codes are user selectable from a pre-set list.

The quick change battery feature and drop-in charging capability allow these models to be used in multi-shift applications. The optional overnight drop-in charger can charge a spare battery when the radio is in use.

- User selectable frequency codes, 18 VHF, 20 UHF.
- 52 user selectable Quiet Call interference eliminator codes. Unlike other brands, you may program a different tone code in each channel.
- Weather Scan (VHF only) feature allows monitoring of local weather broadcasts.
- Stands only 4 3/4" tall.
- Audio Accessory Connectors
- Quick change battery
- Optional desktop overnight drop-in charger
