

144-174MHz, 210-225MHz 6dBd Gain

YAGI ANTENNA

High Performance: These 3 element yagi antennas provide 6dBd gain.

Rugged and weatherproof: The construction of these heavy duty yagis feature a 1" aluminum U channel boom and 3/8" solid elements fully welded and polyester power coated.

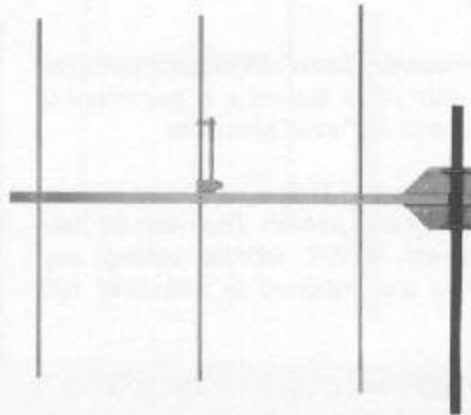

Functional & Durable: These yagi antennas are easily installed by one person. They can be field tuned for lowest VSWR without cutting any elements. They are designed to withstand 125 MPH winds.

Termination Options:

Type A: N connector.

Type C: SO239 (standard)

UPS Shippable: These antennas are shipped assembled and may incur UPS premium charge.

SPECIFICATIONS:

	Y3313		Y3323	
GAIN:	6dBd			
RATING:	300 watts			
BANDWIDTH:	8MHz			
F to B	18dB			
MATERIAL:	1" aluminum U channel boom 3/8" solid elements			
FINISH:	Polyester coat			
MOUNTING:	2 3/8" mast max.			
HARDWARE:	Stainless steel			
IMPEDANCE:	50 ohms			
FREQUENCY:	A	144-150MHz	B	210-220MHz
	B	150-156MHz	C	215-225MHz
	C	156-162MHz	D	
	D	162-166MHz	E	
	E	168-174MHz		
LENGTH:	44"		34"	
WIDTH:	38"		27"	
WEIGHT:	7lbs.		5lbs.	
VSWR:	<2:1		<2:1	
SHIPPING:	UPS		UPS
