

### 144-174MHz, 210-225MHz 9dBd Gain

### YAGI ANTENNA

**High Performance:** These 5 element yagi antennas provide 9dBd gain with wide band performance.

**Rugged and weatherproof:** The construction of these heavy duty yagis feature a 1" aluminum U channel boom and 3/8" solid elements.

**Functional & Durable:** These yagi antennas are easily installed by one person. They can be field tuned for lowest VSWR without cutting any elements. They are designed to withstand 100 MPH winds.

**Termination Options:**

**Type A:** N connector.

**Type C:** SO239 (standard)

**UPS Shippable:** These antennas can easily be assembled in a manner of minutes.
